DOCUMENTS NEEDED

Closure Letter, and any conditional closure letter issued	X
Copy of most recent deed, including legal description, for all affected properties	X
Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties	X
County Parcel ID number, if used for county, for all affected properties	X
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.	X
Detailed Site Map(s) for all affected properties , showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.	X
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)	X
Tables of Latest Soil Analytical Results (no shading or cross-hatching)	X
Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.	
GW: Table of water level elevations, with sampling dates, and free product noted if present	
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)	X
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour	X
Geologic cross-sections, if required for SI. (8.5x14" if paper copy)	X
RP certified statement that legal descriptions are complete and accurate	X
Copies of off-source notification letters (if applicable)	X
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)	X
Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure

RE: **Final Closure**

Commerce # 54724-1603-10 **WDNR BRRTS # 03-09-000752**
Bloomer Cenex, 1110 14th Ave, Bloomer

Dear Mr. Rinzel:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If applicable, the PECFA claim for this site would also be reopened and you may apply for assistance to the extent of remaining eligibility.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (715) 345-5307.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tim Zeichert', written over a horizontal line.

Tim Zeichert

Case File

This Indenture, Made this 19th day of February, A. D., 1958.

between Carl Nehring and Florence Nehring in her own right

and as wife of Carl Nehring part 108 of the first part, and

Bloomer Farmers Union Coop Oil Company a corporation duly organized and

existing under and by virtue of the laws of the State of Wisconsin, located at Bloomer Wisconsin,

party of the second part,

Witnesseth, That the said part 108 of the first part, for and in consideration of the sum of Fifty-five Hundred Dollars

to them in hand paid by the said party of the second part, the receipt whereof is hereby confessed and acknowledged, have given, granted, bargained, sold, remised, released, aliened, conveyed and confirmed, and by these presents do give, grant, bargain, sell, remise, release, alien, convey and confirm unto the said party of the second part, its successors and assigns forever, the following described real estate, situated in the County of Chippewa and State of Wisconsin, to-wit:

All of Lot Seven (7) in Block Six (6) of Van Loon's Addition to the Village (now City) of Bloomer, excepting therefrom the South Seventeen and one-half (17 1/2) feet thereof, being a strip of land Seventeen and one-half (17 1/2) feet wide along the South line of said Lot Seven (7), and extending entirely across said Lot.

Also, the South Ten (10) feet and Eleven (11) inches of Lot Six (6), Block Six (6) of Van Loon's Addition to the Village (now City) of Bloomer, being a strip of land Ten (10) feet and Eleven (11) inches in width North and South and extending entirely across said Lot.

The premises hereby conveyed constitute a parcel of land sixty-four (64) feet in width North and South and extending from the East line to the West line of said Lots six (6) and seven (7), being the same premises conveyed to Guy E. Hutchinson, by Warranty Deed executed by Christ Holter and Signe Holter, his wife, and dated October 18, 1923, and recorded in Vol. 129 of Deeds in page 104.

P. 7. Feb. 24, 1958

Together with all and singular the hereditaments and appurtenances thereunto belonging or in any wise appertaining; and all the estate, right, title, interest, claim or demand whatsoever, of the said part of the first part, either in law or equity, either in possession or expectancy of, in and to the above bargained premises, and their hereditaments and appurtenances.

To Have and to Hold the said premises as above described with the hereditaments and appurtenances, unto the said party of the second part, and to its successors and assigns FOREVER.

And the said Carl Nehring and Florence Nehring

....., party of the first part,
for Themselves, their heirs, executors and administrators, do..... covenant, grant, bargain, and agree
to and with the said party of the second part, its successors and assigns, that at the time of the ensembling and delivery of
these presents they are well seized of the premises above described, as of a good, sure, perfect, absolute
and indefeasible estate of inheritance in the law, in fee simple, and that the same are free and clear from all incumbrances
whatever, except the taxes for the year of 1958 which the party of
the second part agrees to pay.

and that the above bargained premises in the quiet and peaceable possession of the said party of the second part, its
successors and assigns, against all and every person or persons lawfully claiming the whole or any part thereof,
..... will forever WARRANT AND DEFEND.

In Witness Whereof, the said part 108 of the first part ha. ve hereunto set their hands and seals

Re: Case Closure
Bloomer Cenex
1110 14th Avenue
Bloomer, Wisconsin
Parcel ID No. 23009-0922-6038-0605

Dear Mr. Wenzel:

As part of our closure request for the Bloomer Cenex site in Bloomer, Wisconsin, I have provided copies of the legal description for the property. The property is affected by ground water contamination above NR 140 enforcement standards. The legal description for the Bloomer Cenex property was obtained from our records. I believe this is the most recent and accurate description of the affected property.

If you have any questions, please contact me at (715) 568-2170.

Sincerely,

Michael E. Rinzel, General Manager
Bloomer Cenex

Enclosure

Re: Residual Ground Water Contamination
Bloomer Cenex
1110 14th Avenue
Bloomer, Wisconsin
BRRTS No. 03-09-000752

Dear Mr. and Mrs. Springer:

Ground water contamination that appears to have originated on the Bloomer Farmers Union Co-Op, property, 1110 14th Avenue, Bloomer, Wisconsin, has migrated onto your property located within a portion of Lot 8 in Block 6 of Van Loon's Addition of the City of Bloomer, Chippewa County, Wisconsin. The levels of benzene contamination in the ground water on your property are above the state ground water enforcement standards found in chapter NR 140, Wisconsin Administrative Code. However, the environmental consultants who investigated this contamination informed me that this ground water contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726 and Comm 46, Wisconsin Administrative Code. I will be requesting that the Wisconsin Department of Commerce accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation. A copy of a "Fact Sheet" prepared by the Wisconsin Department of Natural Resources (WDNR) pertaining to natural attenuation is enclosed.

Because the source of the ground water contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this ground water contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or 608-264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the Department of Natural Resources' publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination.

The Department of Commerce will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the Department to

provide any technical information you may have that indicates closure should not be granted for this site. If you would like to submit any information to the Department of Commerce that is relevant to this closure request, you should mail that information to:

Mr. Shawn Wenzel
Wisconsin Department Commerce
P.O. Box 8044
Madison, WI 53708-8044

If this case is closed, all properties within the site boundaries where ground water contamination exceeds chapter NR 140 ground water enforcement standards will be listed on the Department of Natural Resources' geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where ground water contamination above chapter NR 140 enforcement standards was found at the time that the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' Internet website. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual ground water contamination. Any well driller who proposes to construct a well on your property in the future will first need to call the Diggers Hotline (1-800-242-8511) if your property is located outside of the service area of a municipally owned water system, or contact the Drinking Water program within the Department of Natural Resources if your property is located within the designated service area of a municipally owned water system, to determine if there is a need for special well construction standards.

Once the Department makes a decision on my closure request, it will be documented in a letter. If the Department grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above or by accessing the DNR GIS Registry of Closed Remediation Sites on the internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact me at 1110 14th Avenue, Bloomer, Wisconsin, 54724, (telephone no. 715-568-2170), or you may contact Shawn Wenzel at the address shown above (telephone no. 608-267-1381).

Sincerely,

Michael E. Rinzel, General Manager
Bloomer Farmers Union Co-Op

Bloomer, WI 54724

Re: Residual Ground Water Contamination
Bloomer Cenex
1110 14th Avenue
Bloomer, Wisconsin
BRRTS No. 03-09-000752

Dear Ms. Stoik:

Ground water contamination that appears to have originated on the Bloomer Farmers Union Co-Op property at 1110 14th Avenue, Bloomer, Wisconsin, has migrated onto the right-of-way of Kranzfelder Street. The levels of petroleum contamination in the ground water on this property are above the state ground water enforcement standards found in chapter NR 140, Wisconsin Administrative Code. However, the environmental consultants who investigated this contamination informed me that this ground water contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726 and Comm 46, Wisconsin Administrative Code, and I will be requesting that the Department of Commerce accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than reliance on natural attenuation. A copy of a "Fact Sheet" prepared by the Wisconsin Department of Natural Resources (WDNR) pertaining to natural attenuation is enclosed.

Because the source of the ground water contamination is not on City property, neither the City nor any subsequent owner of the property will be held responsible for investigation or cleanup of this ground water contamination, as long as the City and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to the property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or 608-264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the Department of Natural Resources' publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination.

The Department of Commerce will not review my closure request for at least 30 days after the date of this letter. As an affected property owner, the City has a right to contact the Department

to provide any technical information that they may have that indicates closure should not be granted for this site. If the City would like to submit any information to the Department of Commerce that is relevant to this closure request, you should mail that information to:

Shawn Wenzel
Wisconsin Department of Commerce
P.O. Box 8044
Madison, WI 53708-8044

If this case is closed, all properties within the site boundaries where ground water contamination exceeds chapter NR 140 ground water enforcement standards will be listed on the Department of Natural Resources' geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where ground water contamination above chapter NR 140 enforcement standards was found at the time the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' Internet website.

Should the City or any subsequent property owner wish to construct or reconstruct a well on the property, special well construction standards may be necessary to protect the well from the residual ground water contamination. Any well driller who proposes to construct a well on your property in the future will first need to call Digger's Hotline (1-800-242-8511) if the property is located outside the service area of a municipally owned water system, or contact the Drinking Water program within the Department of Natural Resources if the property is located within the designated service area of a municipally owned water system, to determine if there is a need for special well construction standards.

Once the Department makes a decision on my closure request, it will be documented in a letter. If the Department grants closure, the City may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.
